Your eCars247 warranty guidelines

This free warranty is NOT an insurance policy, but it is a true dealer warranty, backed by eCars247.

How long does eCars247 warranty last?

It's valid for 6 months from the purchase date or 6,000 miles, whichever is soonest.

What does it cover?

All mechanical and electrical components of the vehicle that were manufacturer's original fitments except those listed in your schedule.

What should I do if my car shows any defects within the warranty period?

Contact the eCars247 Customer Buddy team on 0330 0580 247 for authorisation before any work is carried out.

What could make my warranty invalid?

Damage caused by accident, impact, neglect, corrosion, abuse, lack of service.

Freezing, overheating (Whether caused by a covered component or not), foreign matter getting into or onto a component and consequential damage of any nature.

It is a condition of the warranty that faults are reported immediately, any damage caused by continued use of the vehicle after the fault should have become apparent is specifically excluded.

Any customization or modification carried out on the vehicle will render the warranty void.

This warranty is not transferable.

What are the service requirements to keep my warranty valid?

You must have your car serviced within Mitsubishi's recommendations and have the details recorded within the service portfolio or in the Mitsubishi's digital service record system. Recommended service intervals vary across models – please refer to your maintenance booklet for specific detail.

You should keep original invoices as evidence your car has been serviced in line with Mitsubishi's recommendations.
